## UNIVERSAL DISPLAY SYSTEM

### INSTRUCTIONS

Before

After

#### INSTALLATION

.1.

Carefully clean the surface  
(doors, glass, furniture, machinery, etc.)  
where you need to install the Display System

.2.

Place the double-sided adhesive tape to all four corners  
of the back panel and apply pressure for few seconds

.3.

Remove the protective tape from the  
double-sided adhesive tape

.4.

By means of a nearby parallel line as reference point,  
place the Display System on the surface  
which you have previously cleaned

.5.

For magnetic mounting, remove the protective tape  
double-sided adhesive tape and stick  
the magnet to the Display System

\* For best results, please allow three hours after installation,  
before using the Display System

#### DOCUMENT REPLACEMENT

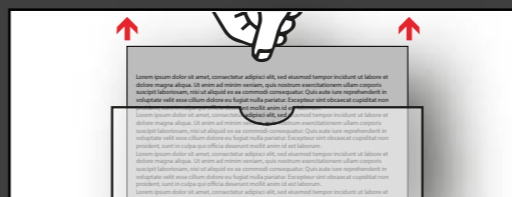

.1.

Grab the document inside the Display system from the  
specific grip placed in the middle

.2.

Gently pull out the document

.3.

Insert the new document until it reaches end-retainer

#### CLEANING

.1.

Lift the brackets on the top of the Display System  
to release the two main element

.2.

Gently pull the released element towards yourself  
and clean the inner surface.

**ATTENTION!**

**Do not use cleansing or abrasive products.  
We recommend the use of water and soap.  
Dry with a soft cloth.**

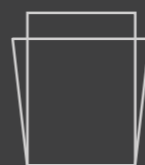

.3.

Put the released element back into its position  
and lock the brackets.
